

I would like to comment on K-Love radio and it's impact in our community in it current format of using translator stations in our area.

I have listened to K-Love radio for more than 5 years and find it as a continuing source of local, national and international news along with local events for me as a listener. With the translators in place, I am able to listen to K-Love as a travel throughout my home state as well as adjoining states. This would not be possible if the translator's were not part of the K-love network. K-love serves another vital local interest with it's participation in the local emergency broadcast network and the severe weather reports broadcast are able to advise us of approaching weather. In addition to all of this, the music and programs are vital to the continuing balance of radio in our area. Especially, in light of the recent acquisitions by corporations such as Clear Channel Communications.

In my opinion it would be a mistake to change the operating effectiveness of this radio station. I ask you to keep in mind the old adage of "if it ain't broke, don't fix it"

Thank you.

Dennis Murphy
